Please explain in detail how you arrived at Minnesota source income as entered

I work for a remote company based in San Francisco, and I moved from NYC back to Minnesota where the rest of my family is.

Please explain in detail how you arrived at the amount as entered

I notified my company in San Francisco that I was moving back to Minnesota March 1st so that they could file taxes to both states. I just entered the amount that was on my W-2 form.

Looking back at my calendar, it wasn't actually until mid April that I started physically working in MN, so that information was incorrect.

Please provide the dates and the state you were physically located in while performing the work for your employer(s) and the income that was earned from your employer(s) in each state

January 1 2018 to February 28 2018: NYC
February 28 to March 15: Vacation
March 15 to March 29: NYC (Move to MN)
April 1 to December 31 2018: MN
